SUMMARY

Computer Science graduate with hands-on experience in Java, Spring Boot, Spring Security, Hibernate, and RESTful API development. Experienced in building secure, scalable backend applications using JWT authentication, role-based access control, MongoDB, and SQL. Proficient in React.js for frontend development with additional experience in Node.js and Express.js. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, DBMS, and backend application development.

TECHNICAL SKILLS

Programming Languages:	Java, JavaScript, SQL, Python.
Backend Frameworks:	Spring Boot, Spring MVC, Spring Security, Hibernate, Node.js, Express.js.
Web Technologies & APIs:	RESTful APIs, WebSockets, JWT, JSON, Role-Based Access Control.
Frontend Development:	React.js, Next.js, HTML5, CSS3, Tailwind CSS, shadcn UI.
Databases:	MongoDB, MySQL.
Core CS Concepts:	Data Structures and Algorithms, Object-Oriented Programming, DBMS.
Tools & Build Systems:	Git, GitHub, Maven, Docker, Linux, Postman, VS Code, Eclipse.

PROJECTS

RoadRescue – Real-Time Vehicle Breakdown Assistance Platform

🐙 [GitHub](#) | 🔗 [Live Demo](#)

Tech Stack: *React, Tailwind CSS, Spring Boot, Spring Security, Maven, WebSocket (STOMP), MongoDB*

- Developed a real-time vehicle breakdown assistance platform enabling users to request roadside support and connect with nearby mechanics.
- Built secure RESTful APIs with Spring Security, JWT authentication, and role-based access control.
- Integrated Leaflet Maps and Spring WebSocket (STOMP) for live location tracking and notifications.
- Designed responsive React.js interfaces with MongoDB integration for efficient service request and mechanic management.

CampusPass – Smart Hostel & Outpass Management System

🐙 [GitHub](#) | 🔗 [Live Demo](#)

Tech Stack: *React, Node.js, Express, MongoDB, Redux, Socket.IO, Tailwind CSS, JWT*

- Built a scalable hostel management platform with Node.js, Express.js, React, and MongoDB supporting Super Admin, Warden, Parent, and Student modules.
- Designed secure authentication and authorization using JWT and role-based access control.
- Developed REST APIs and integrated React frontend with Redux for efficient state management.
- Implemented real-time messaging and notifications using Socket.IO.

EDUCATION

B.Tech in Computer Science

RGUKT RK Valley College

Oct 2022 – Apr 2026

CGPA: 8.75/10

Pre-University Course in M.P.C

RGUKT RK Valley College

Jan 2021 – Sep 2022

CGPA: 9.63/10

CERTIFICATIONS

- **Spring Boot, Spring Framework & Hibernate** – Udemy
- **ReactJS Certification** – Udemy

[Certificate](#)

EXTRA-CURRICULAR ACTIVITIES

- Solved **500+ Data Structures & Algorithms** problems on LeetCode and other coding platforms.
- **District-Level Table Tennis Player** – Represented Anantapur in championships.
